

BLUETOOTH LOAD SHACKLE

BB-S325

Our Bluetooth® system sends data straight to your iOS or Android device, bringing affordable wireless load monitoring to smaller scale rigging applications

Features

- Close range, static monitoring (up to 90 m line of sight) for 1-12 load cells
- No accessories required – download free iOS or Android App and start configuring
- Intuitive App with multiple project dashboards
- Automatic unit conversion
- Easily import and export project set-ups
- Supplied pre-calibrated
- Flexibility to upgrade to standard Broadweigh wireless shackle

About

A 3.25t shackle with integrated Bluetooth® LE 4.0 that provides high precision, static weighing direct to our Broadweigh App, for easy viewing on your iOS or Android device.

The Broadweigh app is available to download at the Apple App Store (for iOS devices), or on Google Play (for Android devices) and contains all the tools required to configure and display data from the shackles in range and requires no other accessories.

The Broadweigh Blue shackle can transmit up to 90 m (295 ft) with calibrated units included in the transmitted values.

A lower cost option ideal for simple, static loads and smaller systems.

Specifications

Measurement

Accuracy	Typically $\pm 1\%$ of load or ± 25 kg, whichever is greater
Weight Range (WLL)	3,250 kg

Battery Life (up to one sample per second)

2x AA cells transmitting 24 hours a day	10 months
---	-----------

Environmental

IP rating	IP67
-----------	------
