- 800 m (2600 ft) range maximum
- Simple configuration via PC using base station with Broadweigh toolkit software
- Remote battery check
- Rugged construction
- Environmentally sealed to IP67

About

A portable battery-powered roaming handheld device which allows the viewing of an unlimited number of Broadweigh shackles. By simply 'roaming' past, the handheld will wake each device and display the data tag of the shackle on the LCD display.

With user friendly BW-Toolkit software, the data tags can be set to allow identification of each shackle allowing the viewing experience to be tailored to each particular application.

Specifications
