

***The TwistLink allows a 4.75 tonne BroadWeigh shackle to be connected to a 4.75 or 3.25 tonne shackle***

### Introduction

The TwistLink allows a 4.75 tonne BroadWeigh shackle to be quickly connected to a 3.25 tonne or 4.75 tonne shackle without having to mess around with the pin, nut and Rclip.

It has holes at 90 degrees to minimise potential torsion loading in the load pin and to maintain accurate measurement and also conforms to the European Machinery Directive.

The TwistLink is available as a complete system incorporating a 4.75 tonne shackle.

### Specification at a Glance

- Easy to install and allows quick connection to 3.25 or 4.75 tonne shackles
- Ideal for temporary / short term installations where speed is of the essence
- Leaves more space in the shackle body to allow larger hook / tackle connection
- Holes at 90 degrees to minimise torsion
- Aerospace graded stainless steel
- Conforms to European Machinery Directive
- WLL of 4750 kg

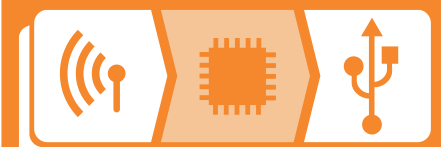

### User Benefits

- Allows quick and easy connection to other shackles
- Minimises torsional forces
- Ideal for temporary installations
- Conforms to European Machinery Directive

### Ideal Applications

- Theatre & Events
- Outdoor Events
- Concerts
- Conferences / Trade Shows
